◉ this session ○ your last session

One session can go up or down a little with the topic or the day; your level over your last three sessions shows your real progress. Your mentor will talk you through what will move you up a step.

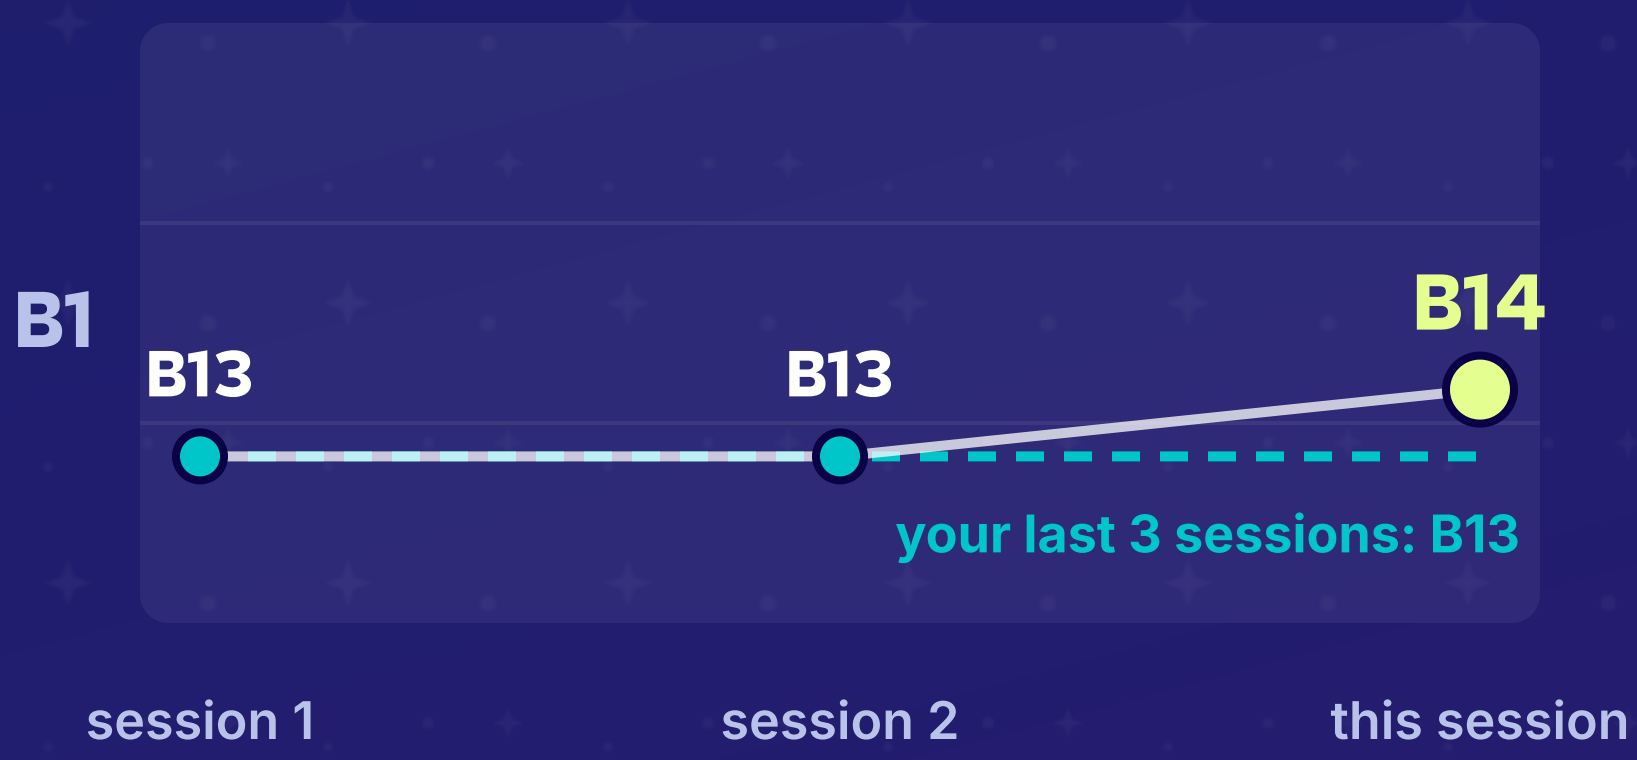

YOUR SPEAKING LEVEL

What your level means

After every session we place your speaking on the PTE CENTER scale. Each CEFR level — A1, A2, B1, B2, C1, C2 — has nine steps, so **B14** means B1, step 4 of 9. Eight parts of your speaking get a step each, and together they make your level for the session.

Your level, session by session

What each step means

Vocabulary range

last session: B13 **B14**

on the way to a solid B1

Enough words for everyday life, interests, work and the news, with some going the long way round.

Vocabulary control

last session: B14 **B15**

a solid B1

Good control of everyday vocabulary; bigger mistakes when expressing more complex ideas.

YOUR SPEAKING LEVEL

PTE CENTER

What your level means

Grammar range

last session: B14 **B16**

a strong B1

The everyday patterns: present perfect, past continuous, used to, first conditional, relative clauses, common modals.

Grammar accuracy

last session: B12 **B13**

on the way to a solid B1

Reasonably accurate in familiar contexts; errors occur but it is clear what is meant.

Fluency

B12

has just reached B1

Keeps going understandably; pausing to plan and repair is very evident in longer stretches.

Coherence

last session: B13 **B14**

on the way to a solid B1

Links a series of shorter, simple points into a connected, linear sequence.

Interaction

last session: B15 **B16**

a strong B1

Starts, keeps going and closes simple conversations on familiar topics; checks understanding.

Pronunciation

last session: B14 **B15**

a solid B1

Generally intelligible; stress and intonation do not prevent understanding; a clear accent.

AUSSIE ENGLISH

PTE CENTER

Say it like a local

Three easy swaps

“I think” 9× → **I reckon**

*I **reckon** it was the best day.*

“a lot of” 7× → **heaps of**

*There were **heaps of** people.*

“no problem” 3× → **no worries**

***No worries** — I’ll bring dessert.*

You don’t need to swap every time — mixing them in now and then is what sounds local.

You already sound local

You already used **“mate”** twice — without any help.

Use them in casual chats and on site. In emails, reports and interviews, your neutral version is still the safer choice.

AUSSIE ENGLISH

PTE CENTER

Your sentences, the Aussie way

Most of what you said in these moments was fine. These are the places where an Australian friend would reach for a local expression — 2 of them.

01:30 You said: “The interview was in the afternoon.”

The interview was in the arvo.

arvo = afternoon

04:10 You said: “Don’t worry, it will be OK.”

Don’t stress — she’ll be right.

she’ll be right = it’ll be fine
